WORK EXPERIENCE

July 2017 – September 2018 **Scientific Research**

- Polyphenol assay
- Evaluation of antioxidant activity
- Column Chromatography
- Data capturing and writing of the thesis

EDUCATION AND TRAINING

2018 until now

PhD student in Organic Chemistry. **Doctorate/PhD Thesis:** Isolation and Characterization of compounds from two plants of the and evaluation of their antimicrobial activity.

2017-2018

Master's degree, Faculty of Science/University of Ngaoundere

DEGREE CLASS

Good

CORE COURSES

- Medicinal chemistry and dosage forms, Modern methods of organic synthesis, In-depth reaction mechanisms, Mass spectroscopy and NMR applied to biomolecules, Chemistry of natural substances 2 and Research methodology.

2014-2015

Bachelor's degree, Faculty of Science/University of Ngaoundere

DEGREE CLASS

Fair

CORE COURSES

- Main groups in mineral chemistry, Thermodynamics and chemical kinetics 2, Reaction mechanisms, Radiocritallography and structure of solids, Water chemistry, Structural and analytical organic chemistry, Practical work in analytical and mineral chemistry, Practical work in organic chemistry 2
- Organic synthesis and molecular transformation, Chemistry of natural products and of life, Quantum chemistry and spectroscopic theory, Group theory and symmetry
- Scientific English 3, Renewable energies, Computer science 3: Numerical methods and Professional integration

PERSONAL SKILLS
