ABOUT ISABEL I UNIVERSITY

Isabel I University is a higher education institution that offers **official undergraduate degrees, double degrees, and master's degrees** with full accreditation in the European Higher Education Area. Further, we teach **postgraduate degrees, vocational training courses and language courses** with our online and blended methodology.

At Isabel I University, the student is at the centre of the learning process, deciding individually when, where and how to develop the learning experience.

Our commitment to quality teaching, innovation and research characterises the modus operandi of the Isabel I University. Our **R+D+I building** of more than 2.000 square metres harbours laboratories and work spaces of our recognised research groups, allows our students to carry out their initiation internships and practical work tasks, and provides external services to all types of companies, organisations, and entities.

Isabel I University has its own **techno-pedagogical design** and technological platform that place the institution at the forefront of national online education.

Moreover, our **11% drop-out rate** is four times lower than the average for other distance learning universities in Spain (43% according to the data published by the Ministry of Education) and well below the overall rate for the country's university system, which stands at 22.5%.

Likewise, the data on the employability of our students place the Isabel I University at the cutting edge of employability in Spain, with 80% of undergraduate students and 90% of master degree students working in qualified jobs.

ACADEMIC OFFER

VOCATIONAL TRAINING

HOW WE STUDY AT ISABEL I UNIVERSITY

STUDYING ONLINE

We offer a **personalised, flexible, and accessible study and training experience**, with a team of teachers that are always in direct and close contact with their students and that will support you in achieving your academic goals.

Our technological infrastructure allows you to stay connected **without time nor location restrictions**. You will have **access to all study materials – included in the enrolment fee** – without having to search for or purchase additional study resources. The course content will be available progressively, making it easy for you to organise your study schedule and respecting your individual learning pace.

THE VIRTUAL CLASSROOM

Browse through our **simple and functional** classroom with its variety of communication tools (forums, chat and videoconferences) to keep direct contact with your fellow students and teachers. The course content will be available in **various formats** (interactive, eBook and pdf documents), adapted to different electronic devices (computer, tablet, mobile) which allows you to access it whenever, wherever, and however you want.

EXAM CENTRES

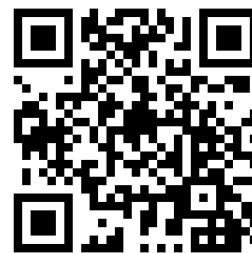

At the Isabel I University, **we adapt to your needs**, therefore you can take your exams in different locations. Currently, we have exam centres in all seventeen Spanish autonomous regions. Plus, we offer you the possibility to take your exams abroad. This way, **we can guarantee you the proximity of our exam centres** to your location of residence. The exams are face-to-face, compulsory, and held at the end of each trimester.

EVALUATION SYSTEM

Our evaluation system offers you two assessment options in the ordinary examination phase and for each course **you can choose** the form of evaluation you prefer: continuous assessment or final assessment. Choosing the first assessment option you will have to follow the evaluation through different activities proposed in each course and a final face-to-face exam. For the second assessment option, you will do a competence evaluation test as well as a final face-to-face exam.
