**WHAT THE CONFERENCE WILL BE ABOUT** Teleosemantics is one of the most fruitful research programs in contemporary philosophy of mind. Since its inception in the 1980s, it has continuously been refined, enhanced and extended to new domains, and recent years have seen a number of exciting new developments in this field. The conference aims to bring together leading theorists and younger researchers to discuss the present state of teleosemantics as well as its future.

**VENUE** The venue of the conference is building X, room A2-103 at Bielefeld University. [maps of the campus](#)
