## Logon to electronic course catalogue (eKVV)

There are various options how to log on to the electronic course catalogue (eKVV). Please chose the one applicable to you:

### eKVV for Students

To create a timetable and use all other functions of the eKVV for students, use this link to register via your Uni Login:

**Logon for students**

If you do not (yet) have a Uni Login, you can also use the electronic course catalogue (eKVV) via a guest account:

**Log-on using an existing guest account**

**Creating a new guest account**

### eKVV for employees

The internal pages for editing the (electronic course catalogue) eKVV for teachers and secretariats can be reached here:

**Logon for internal eKVV**

A single sign-on for MyUni Portal, eKVV, application and status portal, course sites and examination management with your matriculation number and your password.

When you have a guest account, you can make your timetable and your timetable will be adopted when you change your guest account into your students account. But later when you pass an exam, the result will not be adopted.That's why you should change your account as soon as possible when your matriculation number and your password are activated.

# Change my guest access to my matriculation number

If you have a guest account, you can transfer it to your account here. Your settings, your timetables and, if applicable, your email address will be transferred during the change-over.

**Please enter your user name and the password:**

**User name:**

**Password:**

**Change my guest access** | **Cancel**

When your matriculation number and your password are activated,
you can transform your guest account easily!

You have to log on to the eKVV with your students login (matriculation number and password).
Click on „Change guest access“. Here you have to enter your guest account data. Then click „Change my guest access“ and your guest account will change into your student account.

## 230334 Academic Writing (S) (WiSe 2023/2024)

**Contents, comment**

In this class, students will be given the opportunity to extend and consolidate their writing skills in literary studies through regular and intensive writing tasks. In a range of exercises, students will practise how to develop a research question in literary studies, how to turn this question into a clear and detailed thesis statement as a basis for a well-structured argument, and how to write a coherent, cohesive, stylistically appropriate paper.
The ultimate goal of this class is to help prepare students for writing their module paper in the "Introduction to Literary Studies" (Basic Module 2).

**Requirements for participation, required level**

Students are expected to have a general understanding of writing in professional contexts and of analysing and interpreting Anglophone literatures; in other words: it is not advisable to attend this class prior to 'Writing and Research' and the lecture 'Introduction to Literary Analysis and Interpretation'.

**Bibliography**

Will be provided.

**Teaching staff**

Dr. Angela Stock

Course Description
Das Ziel des Seminars besteht vor allem darin, den Studierenden des Studiengangs "Klinische Linguistik" die Kriterien der Aphasiediagnostik zu vermitteln.
Dieser praktische Teil ermöglicht die Diskussion sowohl von Transkriptionsverfahren und der Auswertung des Aachener-Aphasie-Tests als auch spezifischer Fragen der Diagnose von Aphasie.
Some lectures have „Course Sites“.
The lecturer decides if she*he wants to establish it for the lecture.

**Courses offered**

- Select your degree programme in the courses offered.
- Open your **subject-specific regulations** and **read it**.

**Subject-specific regulations**

- Read the tables which belong to your degree programme attentively.
- Pay attention to footnotes, options, additional information.
- Here you can see which modules belong to your degree programme.

**List of modules**

- Open the list of modules of your degree programme in the courses offered and read it.
- Click on the modules to **read their description**.
- Here you can see **which lectures** belong to the module and **how many examinations** do you have to pass for it and **which kind of exam** is required.

Study the lectures and pass the required exams of a module

\+

Complete all the required modules

=

Complete your academic studies succesfully

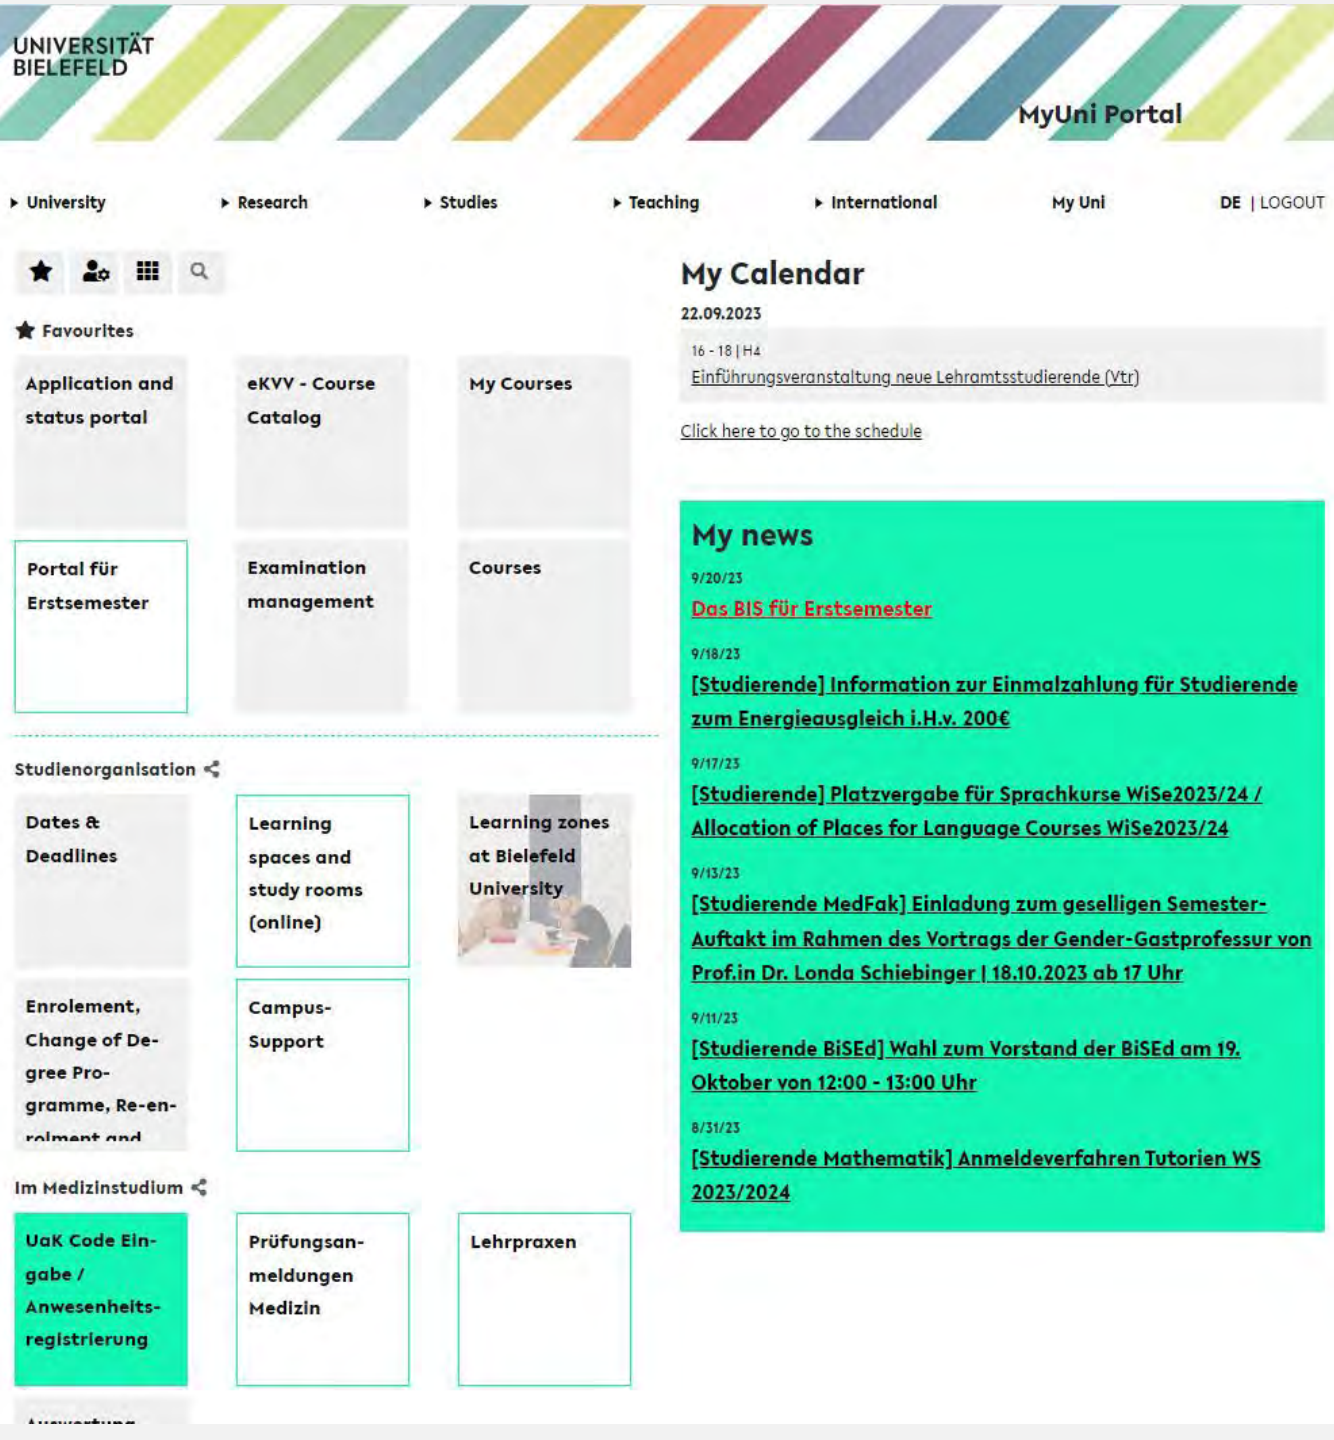
# The eKVV

- Lectures can have a limitation of the number of participants.
- Based on the participant management function, the electronic course catalogue (eKVV) can provide you with information (→ e-mail adress!) as to whether you were assigned a seat in the lecture. But the assignment of the seats is internally organised by the faculties.
- The electronic course catalogue (eKVV) can only tell you about your participant status once you have logged in to the electronic course catalogue (eKVV) and stored the course in your timetable.

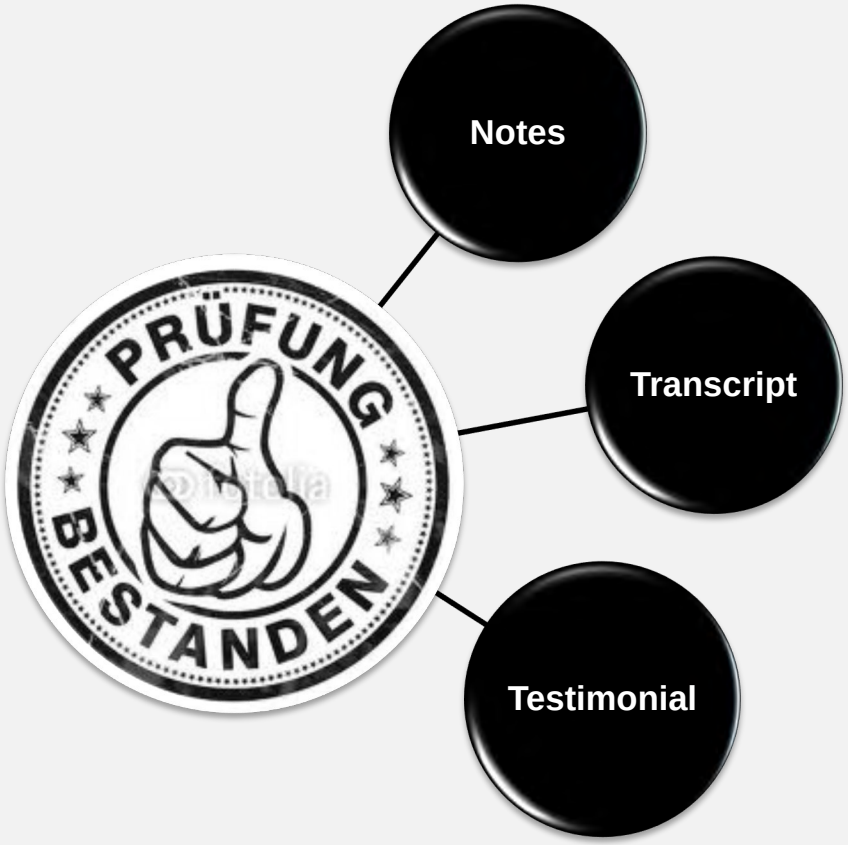
# The eKVV - Onlinebedarfserhebung

- The „Onlinebedarfserhebung“ is organised before every new term.
- The faculties upload their programme of lectures for the following term.
- All students plan their expected timetable for the new term. It is not binding but you should do it realistically.
- First semester students don‘t need to do this because the planning begins earlier.
- As a result the faculties know how many students will participate in the different lectures and they can adapt the rooms accordingly. Also they can postpone courses if necessary.

Use the MyUni Portal to easily switch between different applications.



# The BIS examination management



- Management of all examination results.
- It is based on the eKVV participation lists
- At the end of the degree programme, the "Transcript of Records" (abbreviated to: Transcript) is part of the certificate documents
- All students can view and partly edit their own Transcripts
- If you accidentally change assignments incorrectly, don't worry. → Nothing gets lost and nothing gets broken

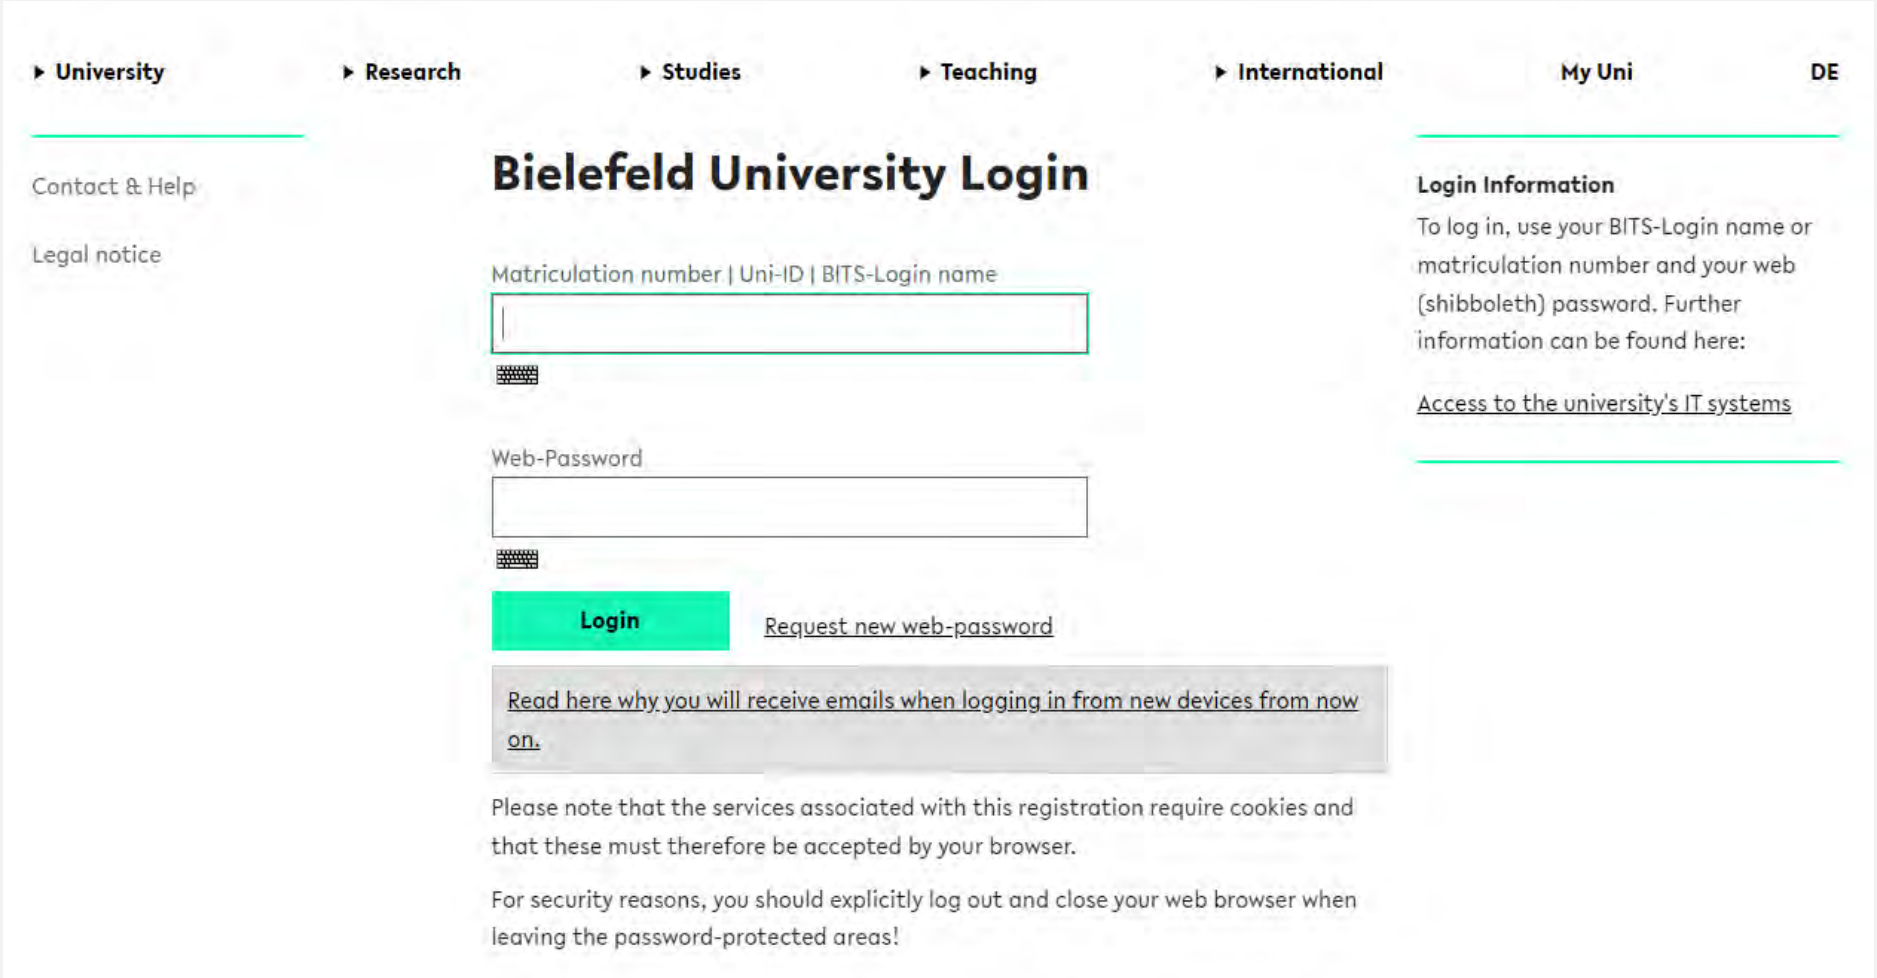
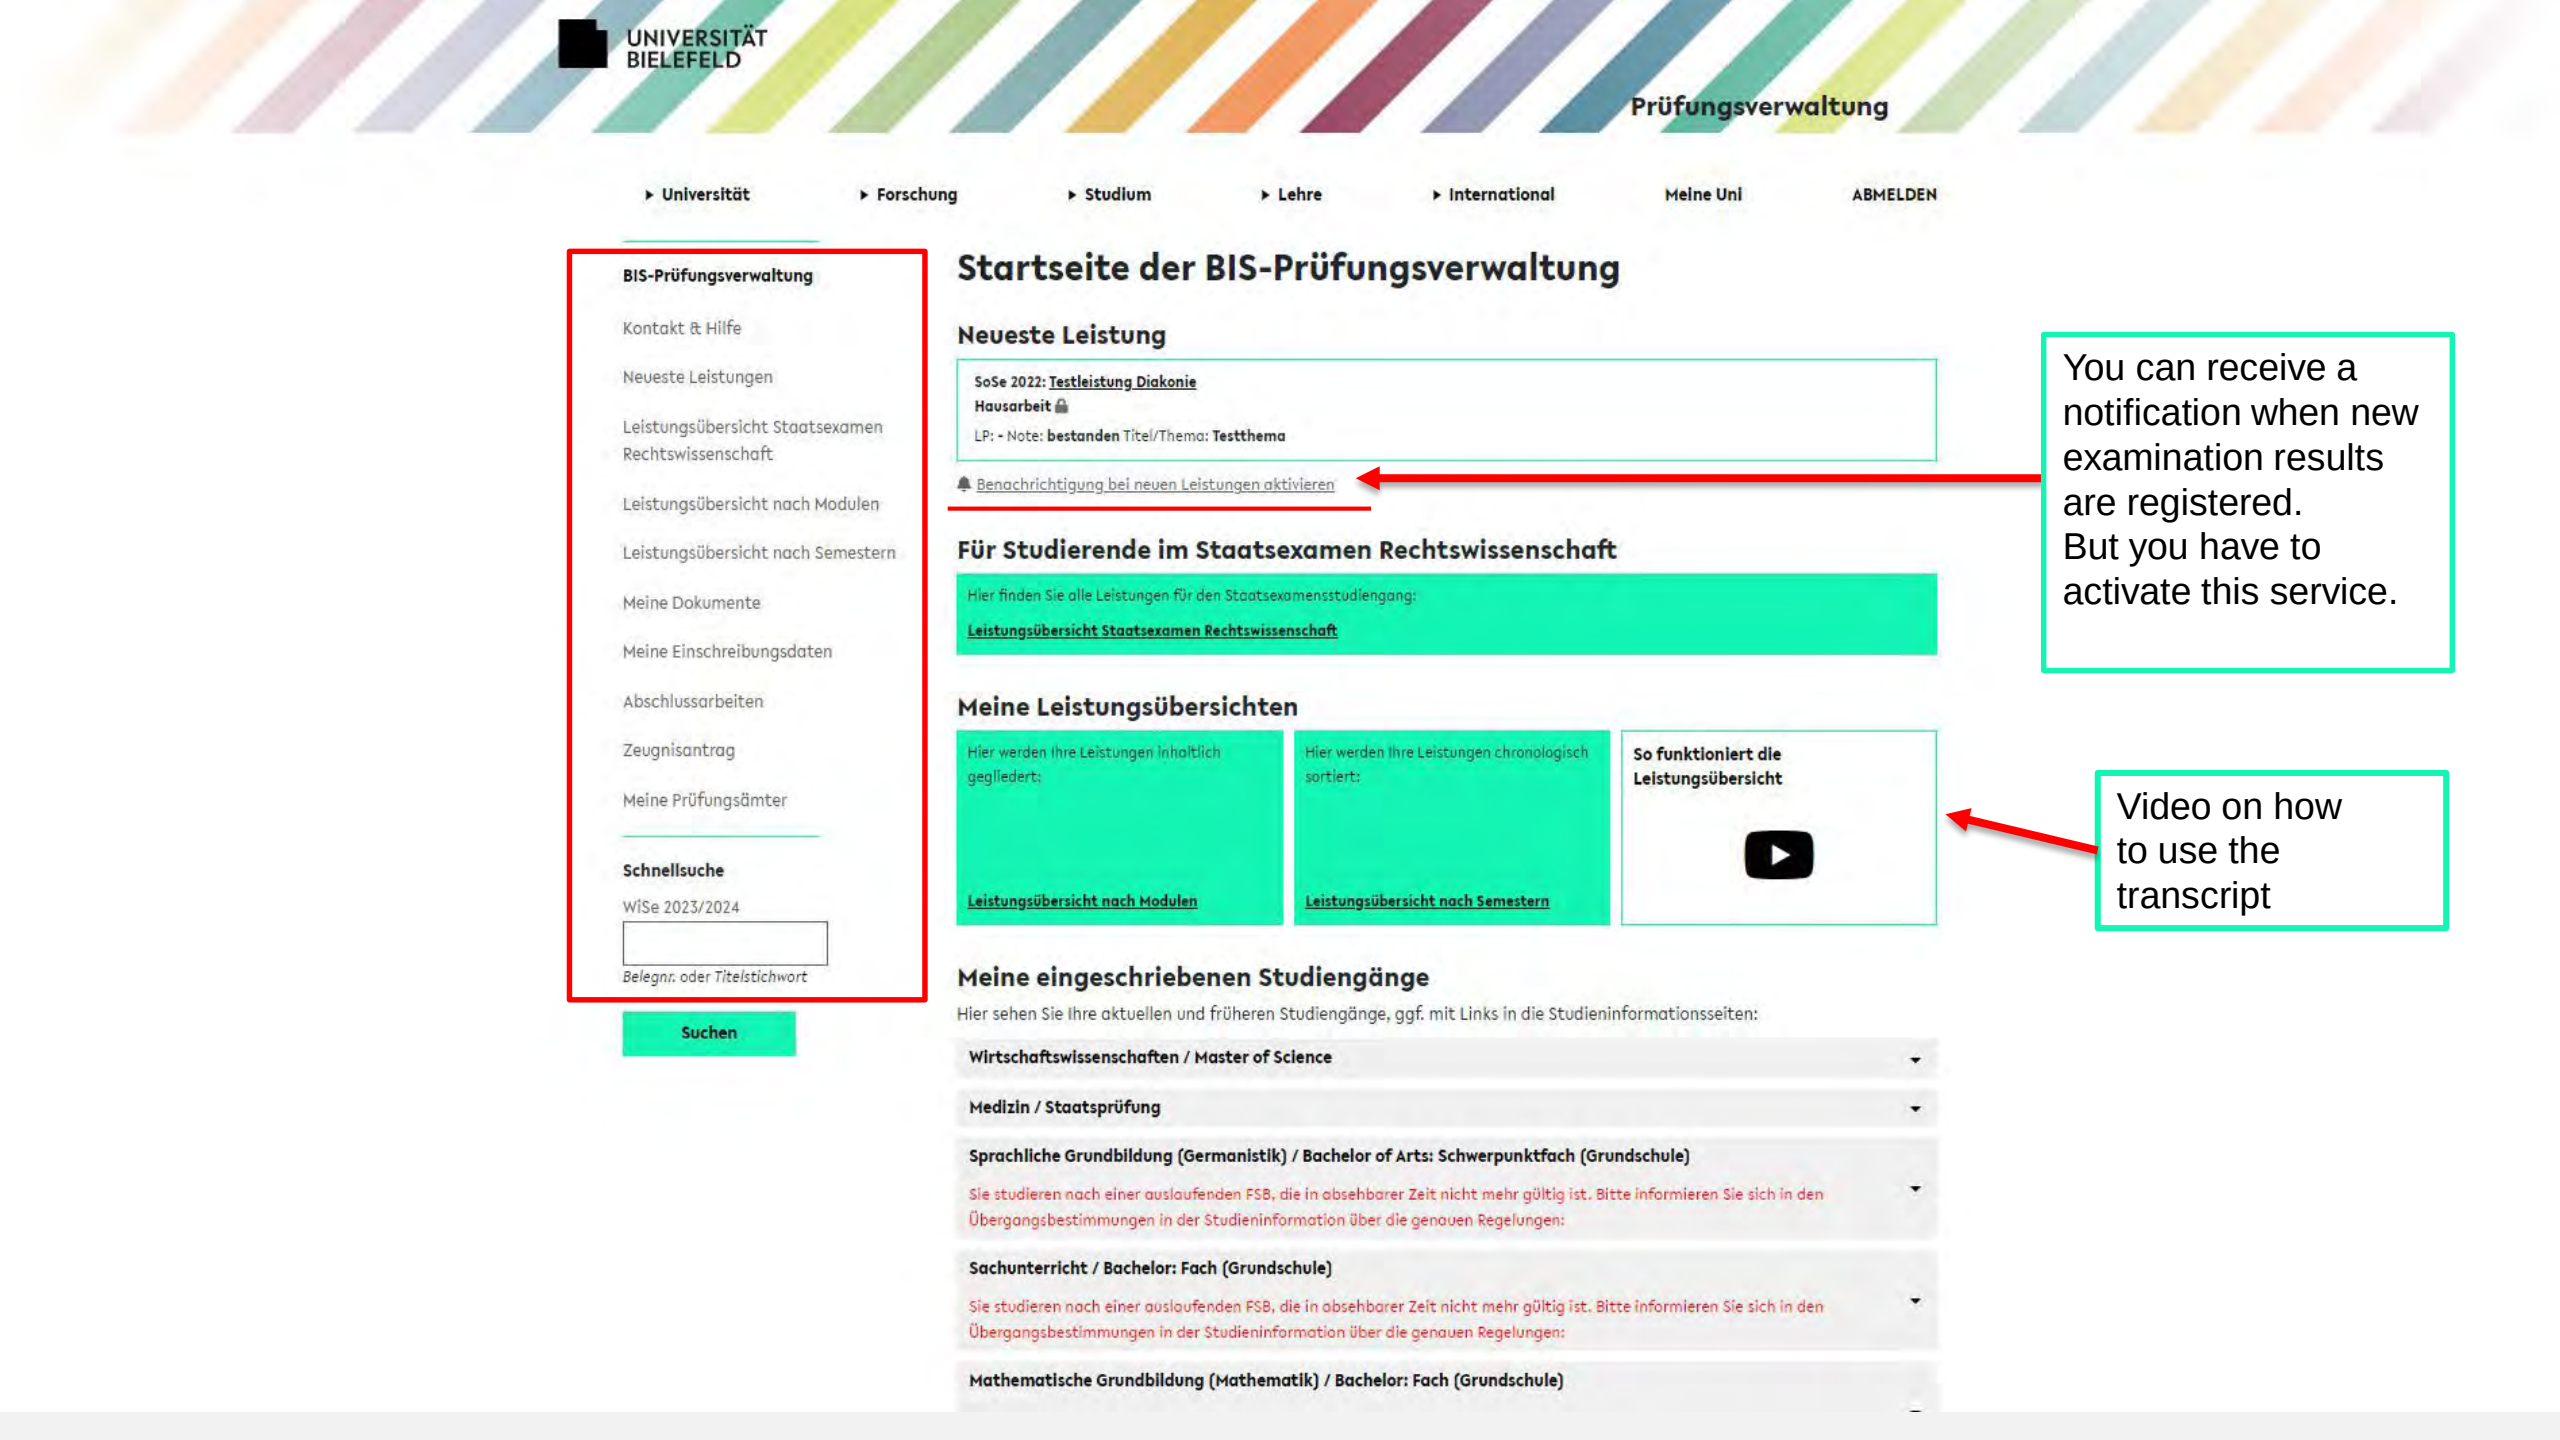
UNIVERSITÄT BIELEFELD

# BIS – Bielefeld Information System

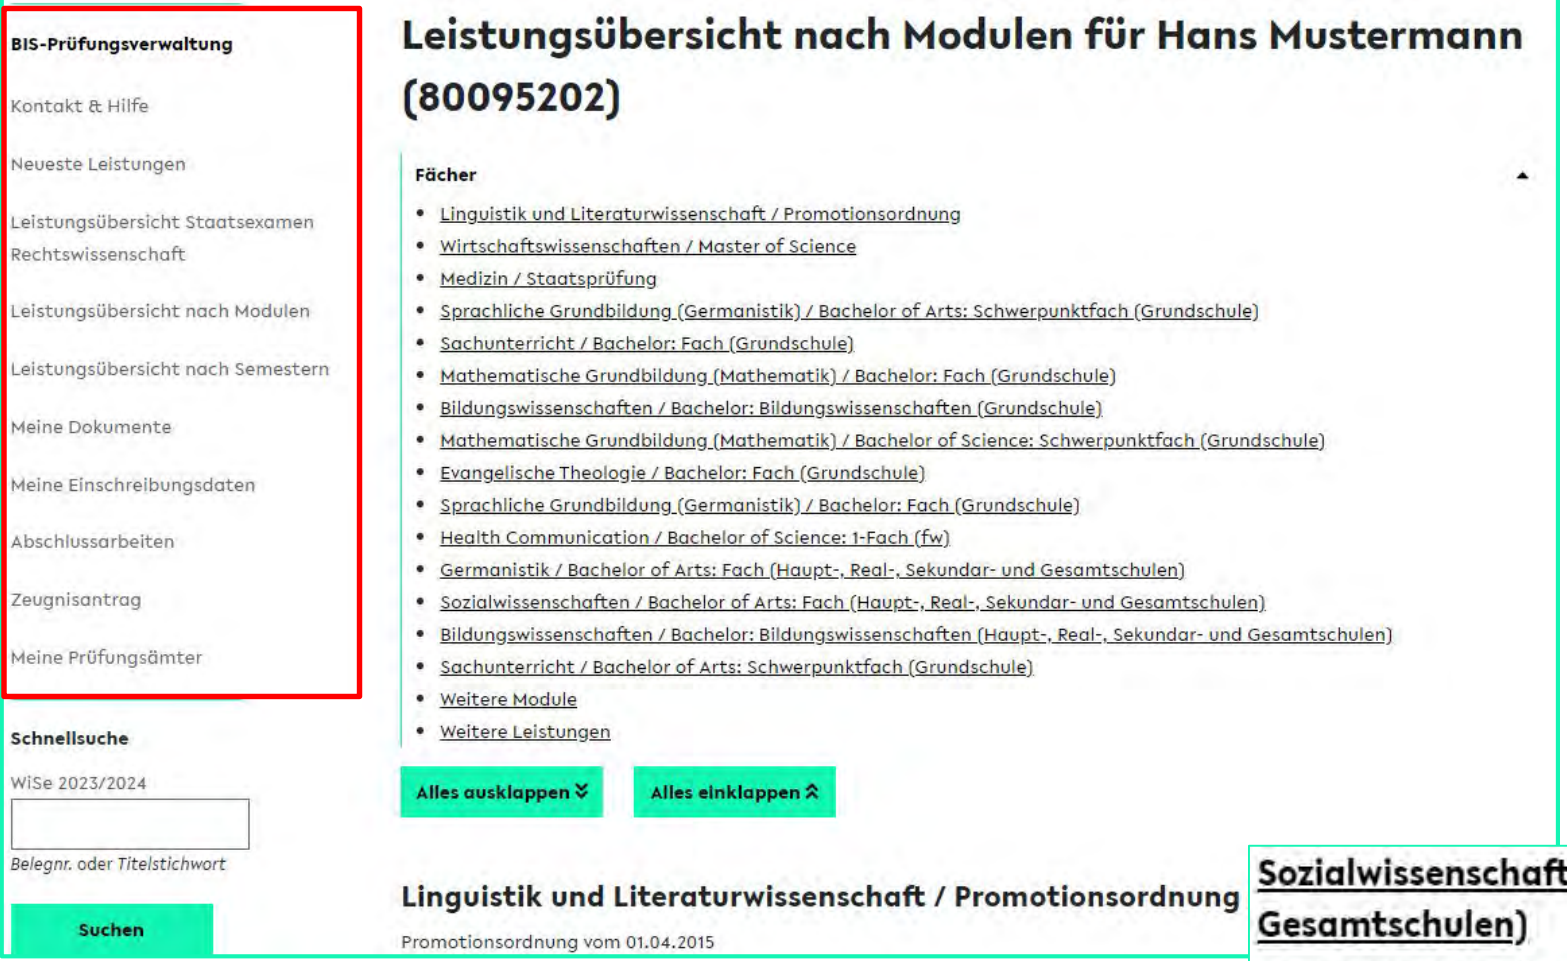
A single sign-on for MyUni Portal, eKVV, application and status portal, course sites and examination management with your matriculation number and your password.





You can receive a notification when new examination results are registered.
But you have to activate this service.

Video on how to use the transcript



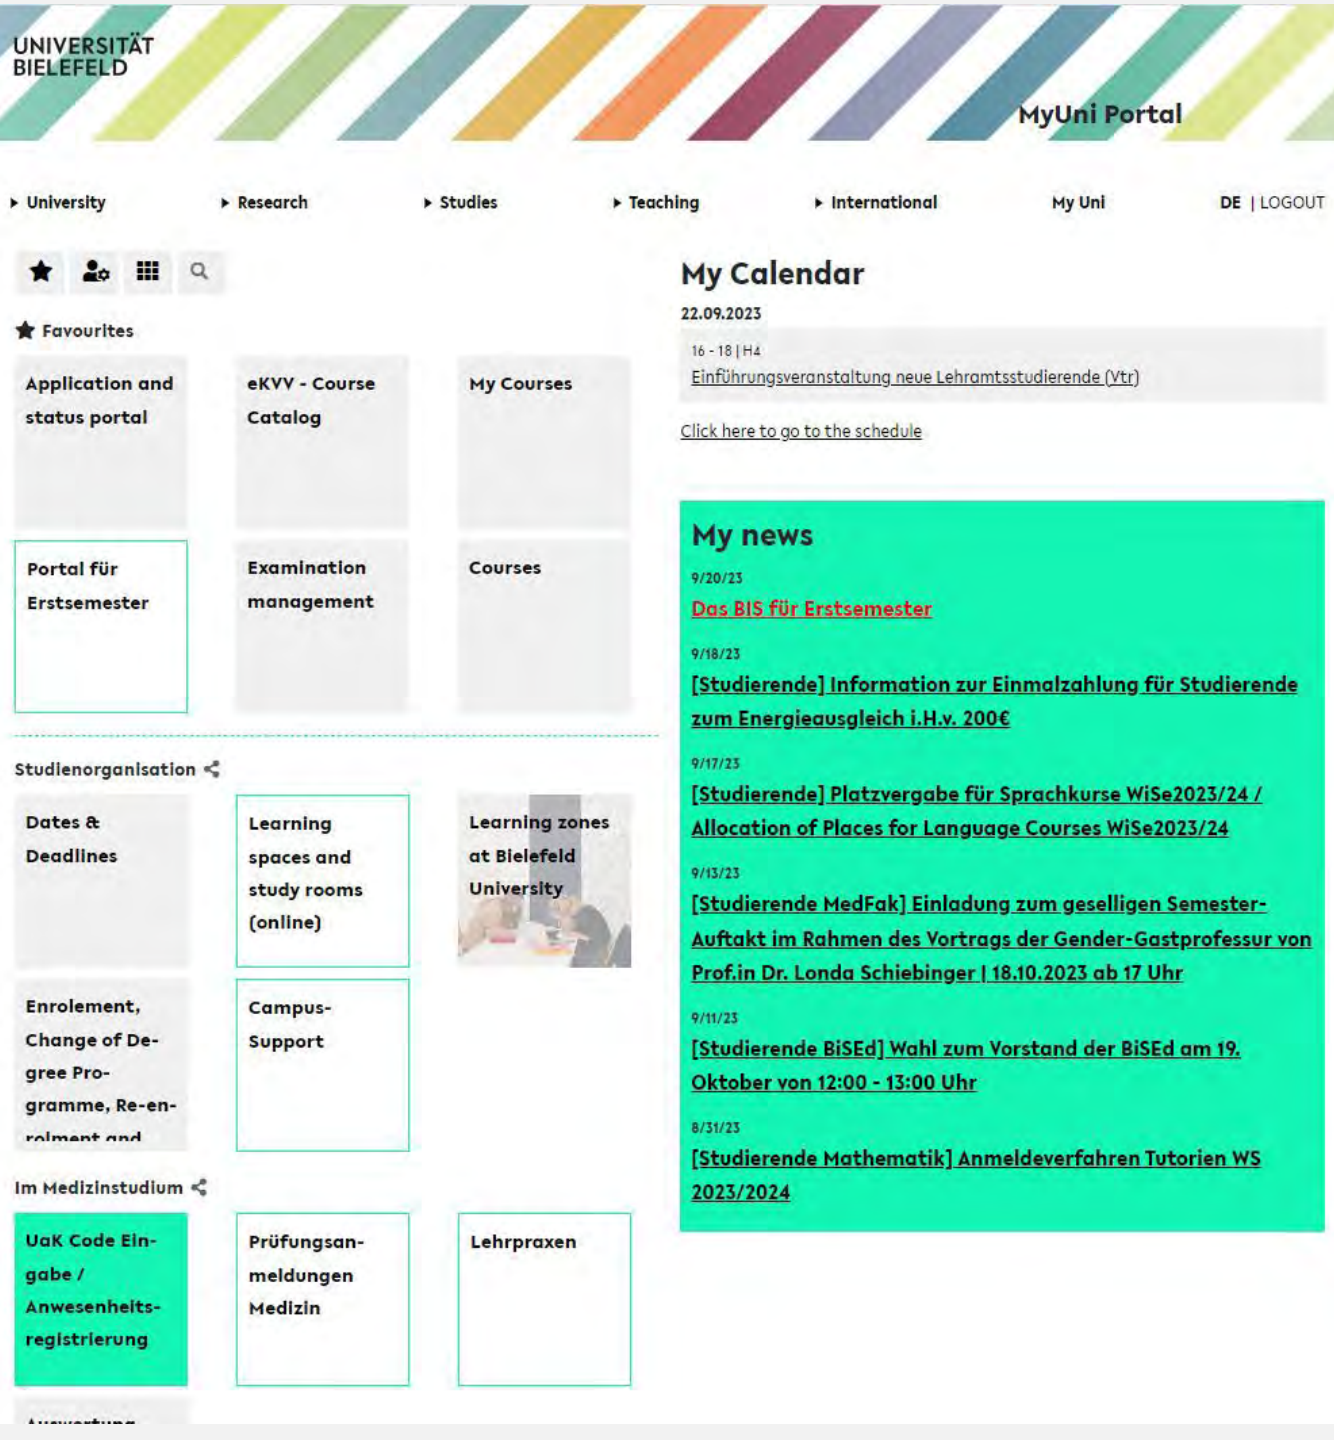
You can check your grades in the transcript sorted by modules.

You will first see a list of the degree programmes in which you are enrolled.

Below that, the modules with the corresponding study requirements and examinations are displayed for each degree programme.

When you want to take an exam in a lecture, you have to store the lecture in your timetable.

Use the MyUni Portal to easily switch between different applications.

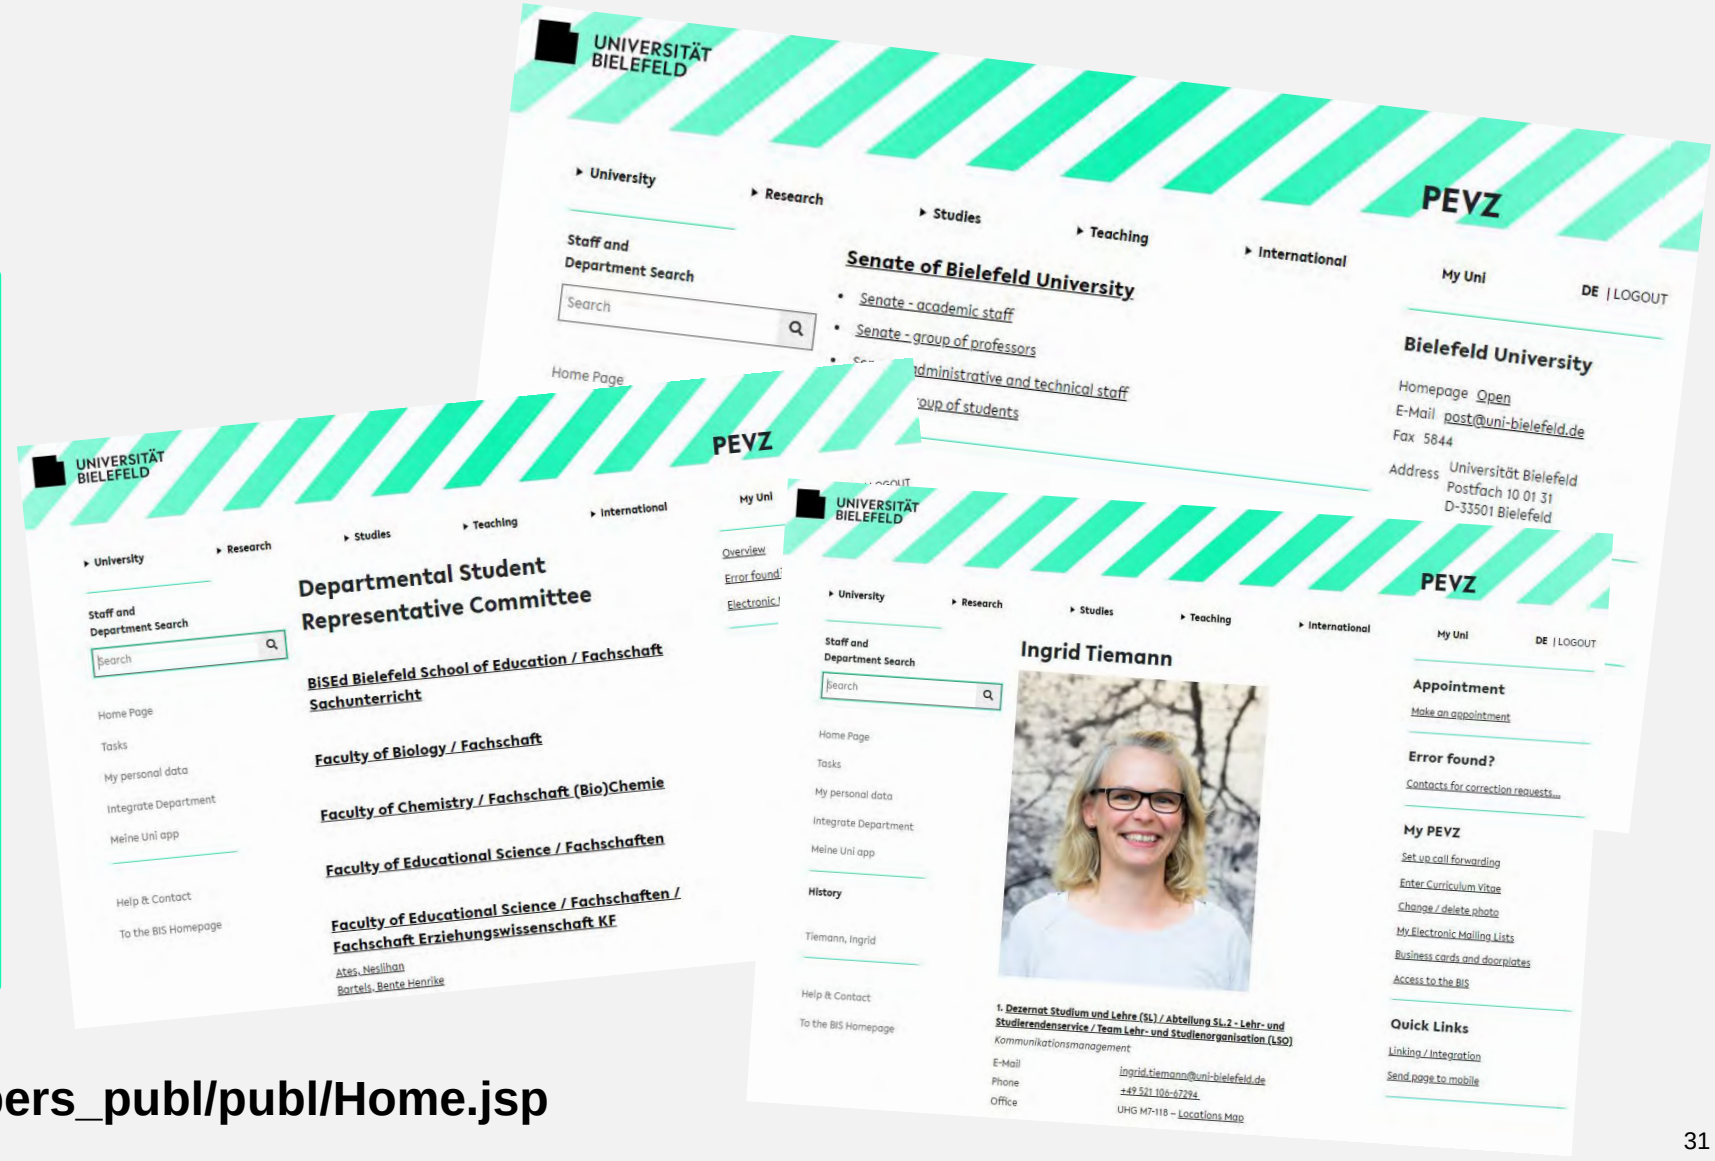


# The PEVZ

## Staff and Department Search

**Who does what at the university?**

The PEVZ contains the contact details and office hours of all lecturers, counselling facilities and staff members.



**https://ekvv.uni-bielefeld.de/pers_publ/publ/Home.jsp**

# The „Meine Uni-App“

In the app stores for iOS and Android

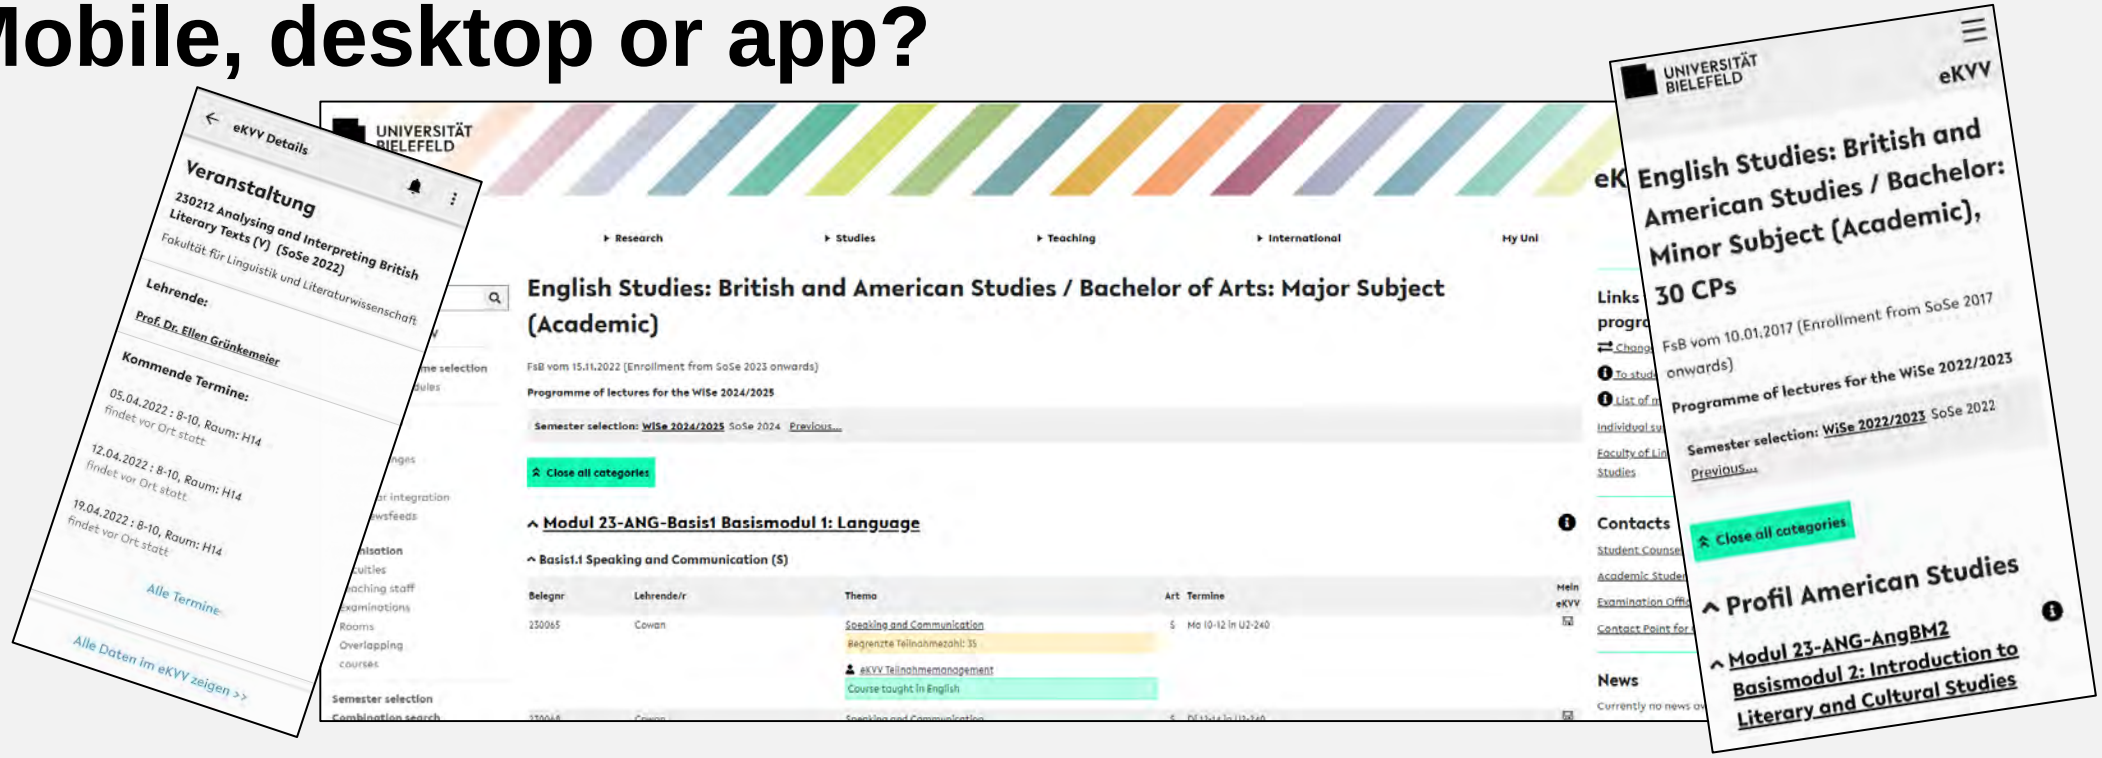
The most important functions from eKVV, PEVZ and the latest news from the university:

- Evaluations
- Calendars
- bike rental codes
- latest examination results
- …

Can also be found via MyUni Portal“:

- … under the applications
- … via the search function („app“)

# Mobile, desktop or app?



The BIS applications can be used on the desktop or in the mobile version, but for important and time-consuming tasks such as the timetable, checking enrolment data or the transcript, a large screen and a mouse are the means of choice.

The app is for everyday university life, when the timetable is already ready and for a quick look at a course room or the latest examinsation results

# Further information and contact

Further information on eKVV, examination administration and study information can be found on the BIS website:

http://www.uni-bielefeld.de/bis/

For all questions regarding the use of eKVV and examination administration, please contact:

campus-support@uni-bielefeld.de

# Summary

*short and sweet*

**Maintain your data and enter your (university) e-mail address.**

**You need a timetable in the eKVV.**
**Create your timetable using your subject-specific regulations and the list of modules and their descriptions.**

**Maintain & check your transcript regularly.**
